

International Workshop on Program Understanding

July 2 – 4, 2011, Novosibirsk, Russia

The workshop is a satellite event of the 8th Ershov Informatics Conference PSI'11 (June 27 – July 01, 2011, Novosibirsk, Akademgorodok, Russia, <http://psi.nsc.ru/>). The aim of the workshop is to provide an opportunity for active researchers to establish cooperation, to exchange new ideas, and discuss in-depth current trends and problems related to the following topics:

Workshop topics

- formal and informal program models;
- program specification, transformation, and verification;
- semantics and program analysis;
- programming paradigms;
- system re-engineering and reuse;
- integrated programming environments;
- software architectures;
- software maintenance and testing;
- program understanding and visualization.

(The list is not exhaustive.)

Co-chairs

Mikhail Bulyonkov, A.P. Ershov Institute of Informatics Systems, Novosibirsk, Russia
(mike@iis.nsk.su)

Robert Glück, DIKU, Dept. of Computer Science, University of Copenhagen, Denmark
